

Jute Padding 1974 TCS before removal

Jute Padding 1974 TCS

Jute Padding 1974 TCS

Chassis section of jute

Cloth backed rubber
'Y' piece, 0.125 thick

Top 'Y' piece, two pieces of
jute bonded 0.25" + 0.50" thick

Jute Covering Main Box Section of Chassis

All dimensions in inches & symmetric about centerline

Start with a piece 60 x 28, you'll have plenty

Cut the external dimensions oversize and the internal undersize and fit to chassis

Front cross-member and rear Y piece

26 x 2.25 x 0.50 thick

1 layer 0.25 jute
bonded to second
layer 0.50 jute
0.75 total thickness

Rubber side on the
bottom. Basically
0.125 thick rubber
with a thin cloth
backing

Both pieces
the same size
but different
thicknesses
